Families of Linares, Nuevo Leon, Mexico

Volume Three

Volume three of Families of Linares, Nuevo Leon contains marriage information from 500 marriage records found on the FamilySearch.org browse online collection. The marriages in volume three occurred in the time span of May 6 1767 to June 7, 1781. Basic information from the marriage records is presented along with other information gathered in an attempt to present two generation descendant reports. Most of the non-marriage record information presented was gathered using the FamilySearch.org database index. The marriage records come film number 726480.

Warning!! Many of the brides and grooms in this period did not have surnames. Be aware that in some cases I may have placed part of a given name in the surname database field.

I think my interpretations, as presented in this volume, should be very helpful for those that view the world in black and white. They can also help those that understand that the truth includes many shades of gray. You are welcomed to view my work as indisputable. I do not. If you want to see the records with your own eyes, use the provided image numbers to quickly locate the original records on the internet.

I want you to find any and or all of these church marriage records. The image number followed by a dash and serial number for each record is given with the hope that you can locate them with little effort. It should be easy if you have used the online images before.
